M12 E

CE
CERTIFIED

INDUSTRIAL LOGISTICS

Zallys M12 E, thanks to its predisposition to equip **electric accessories**, is the most versatile tugger in our product range.

It can pull, push and steer wheeled loads up to **1500 kg (3,306 lbs)**(with ballasts), increasing productivity and safety while reducing manual handling and man power needed.

The electric equipment controls are operated directly from the tiller head, ensuring the maximum safety for the user.

Thanks to its wide array of accessories, **M12 E** is the ideal solution for multiple applications related to material handling in many different sectors.
