INDUSTRIAL LOGISTICS

Zallys M15 electric platform trolley, equipped with a loading platform of marine plywood, is the solution to easily transport heavy loads up to 500 kg (1.100 lb). Thanks to its compact dimensions and 360° degrees rotation feature, M15 can pass through doors, enter/exit from lifts or elevators and it is ideal in confined spaces or narrow aisles.

It can be equipped with various types of sides and an additional shelf, available as optional.
