M6.5

## INDUSTRIAL LOGISTICS

**Zallys M6.5** is a pedestrian operated electric tug designed for moving trailers and heavy wheeled loads.

Is a powerful vehicle, but easy to handle: can be equipped with various accessories such as hooks and ballasts, to tow up to 6.000 kg (13.228 lb) on flat grounds.

**M6.5** is equipped with a swivel tillerhead with a safety sensor that allows the use only in presence of the operator. The motor is equipped with an electromagnetic brake, for the maximum safety.
