

presents the E-Z Climber™

MAKING WORK EASY

Whether you need to move a safe, photocopier, drink dispenser, air conditioner, household appliance, engine or piano, the *NEW* AEUP E-Z Climber™ is an indispensable partner for people moving heavy and/or bulky objects, whether it be from room to room, up stairs or loading into or off a vehicle.

The E-Z Climber saves you time and money and reduces the risk of injury when moving cumbersome items. With three models to choose from, you can select the model that best overcomes your worksite challenges, such as:

- Loading and moving bulky or heavy items safely
- Minimizing risk of product or job site damage
- Maneuvering with ease, even in narrow spaces
- Moving product up inclines or stairways with limited manpower

Built to handle a rugged workload, the E-Z Climber features a fabricated and electro-welded steel chassis and can carry up to 1,322 lbs.

Backed by our Platinum 5-1-1 Warranty, the dependable and hard-working E-Z Climber will take the strain out of your workday.

THREE MODELS TO CHOOSE FROM

The E-Z Climber is available in three different models, each with specific attributes that allow you to choose the price point and features that meet your needs.

E-Z Climber 1300™

- Easily maneuver loaded machine with intuitive actuator and proportional joystick controls
- Robust tracks and hydraulic lifter safely conquers inclines, declines and stairs
- One-person operation saves you time and money on the job

E-Z Climber 1300/H™

- Extendable control box allows worker to walk behind or along side of unit and operate with button controls
- Move product up or down stairways and steep terrain while horizontal, hydraulic platform keeps product in horizontal position at all times

E-Z Climber 1300/V™

- Extendable control box allows worker to walk behind or along side unit and operate with button controls
- Vertical, hydraulic platform allows a single worker to raise platform into vertical position, secure load, then lower platform back to starting position

PRODUCT FEATURES:

- Dual electrical drive motors working in direct current operate through reduction gears on each driving wheel
- Hydraulic system powered by electric motor in direct current
- Electric system in conformity with CE regulations
- Equipped with protection fuses, key selector, emergency stop-button, marked cables, pilot light, Curtis battery charge indicator
- Easy-to-use controls (varied by model), consist of:
 - potentiometric throttle hand controls (twist grip) to adjust drive speed
 - switch to select direction (forward/backward)
 - main steel platform movement control push button (forward/backward)
 - lifting platform control push button to lower or retract the rollers under the body of the E-Z Climber (with buzzer during the lifting period/phase/step)
 - right and left individual track drive steering push button
 - platform “angle” control push button (horizontal version only)
 - platform vertical position control push button (vertical version only)
