*Electric wheelbarrow designed to work with loads up to 300 kg / 661 lbs.*

The right balance between load and wheels gives the customers confidence when using the vehicle; the wheelbarrow is easily manoeuvrable.

The motor has an electromagnetic brake that automatically engages when the power is turned off.

The gear train is in a sealed oil bath, eliminating maintenance.

The tilting system of the D1 allows accessories to be interchanged quickly and easily.

Our electric vehicles are not only CE certified but, more than 80% of the range is covered by the UL certification, which guarantees its suitability to the standards applicable in relation to potential risk of fire, electric shock and mechanical hazards.
