An electric transporter with a work capacity over the 8 hours, suitable to who has the need to move and load up to 500 kg / 1102 lbs.

HS is very handy and suitable to be used in productive plants, warehouse storage, and in any other material movement operation, making it simple avoiding the hard work while increasing the efficiency.

It can be equipped with interchangeable skips or crates.

The electronic system that controls the forwarding and reverse speed is guided by a knob accelerator, making the work easier and safe even in narrow places.

HS is supplied with a red lever for extra safety, which allows to work only in the presence of assigned personnel.

The tilting system gives the possibility to equip and change rapidly different types of accessories depending on the expected use.

Our electric vehicles are not only CE certified but, more than 80% of the range is covered by the UL certification, which guarantees its suitability to the standards applicable in relation to potential risk of fire, electric shock and mechanical hazards.
