XT510 Full Optional

CE
CERTIFIED

CEMETERY

The **XT510** model is an electric hydraulic lifter designed to be used in cemeteries to rise and bury coffins up to 13.5ft (410 cm) high, capable to load and lift up to 771 lbs. (350 kg) including the operator and the casket.

It is equipped with 4 stabilizing feet, to level its position and improve the stability during operations, and with a wired remote control.

The platform is equipped with rollers for frontal and lateral sliding of the coffin, to make all burial operations easier and safer.
