

Presents the **CAWP-9.6™**
Construction Aerial Work Platform

**ONE SOLUTION,
 ENDLESS POSSIBILITIES!**

Safety is our number one priority. The latest in technology promotes safety and is the most cost effective unit in today's market.

The **CAWP-9.6™** allows operators to work independently and increase productivity while eliminating the need for scaffold, scissor lifts and push-around units.

- No ladders, no outriggers, no hassles.
- One man (though rated for two) can easily do a job safely, quickly and efficiently.
- It has the lowest rolling tire floor load and unit weight in the industry - just 1,170 lbs.
- Unit features dual platform extensions with an unrestricted platform capacity.
- Its unique design promotes usage in very confined areas. Small elevators, narrow hallways, closets, aisle ways, mezzanines and congested office space are just a few of its many applications.
- Portability is another key. The unit is light, compact, and easily loaded into a van, truck or pickup. One man can operate and maneuver it easily or it can be loaded with its top mounted forklift.
- The **AEUP CAWP-9.6™** is environmentally friendly.

All this on a small, compact steel base made to stand up to the toughest and harshest construction sites. Its durability and portability are accompanied by the most exciting warranty in the industry.

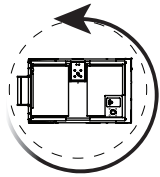

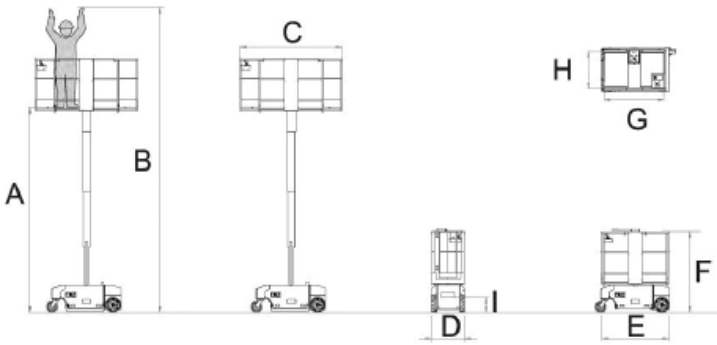

Work just became fun again...

**MAKING WORK SAFER, FASTER, EASIER...
 MORE PRODUCTIVE**

Manufacturer 5-2-1 Platinum Warranty
The BEST in the industry!

Ultra-compact design.
 Unique combination of low floor load rating,
 spacious basket, proportional drive / lift
 speed with gradeability.
ZERO Inside Turning Radius

Model Highlights: Lightweight, Rugged, Versatile

- Maintenance-free Hydraulic Mast Design, (no chains or cables) Eco-Friendly
- Outstanding Ground Clearance
- Active Pothole Protection
- Dual platform extension decks
- Battery Duty Cycle: 250 lift cycles or 7.4 mi.
- Fully Proportional Lift & Drive
- Built-in tilt sensor, flashing travel light / alarm
- Fast & Efficient Serviceability
- Easy transport from job-site to job-site

The Ideal Solution for A Variety Of Applications

- Mechanical, Electrical & Plumbing Contractors: Lighting, Heating/HVAC, Sprinkler, etc..
- Ceiling, Drywall Insulation Contractors: Drop Ceiling, Acoustic, Metal and Texture Ceiling; Plasterboard Partitions, etc.
- IT Services: Structured Cabling; Analog, Voice-VOIP Data Cabling; Antenna Systems; Security camera /monitors, etc.
- Plumbing Contractors, Panelized Slab Form-work, Shuttering / striking, reworking / dismantling, etc.
- Building Maintenance: Accessing Utilities, Changing lights / signs, cleaning and sanitizing, etc.
- Renovation Contractors: Painting Contracting, Facilities Management

MEASUREMENTS		US
A	Platform Height	9'6"
B	Working Height	16'
	Platform Length	44"
C	Platform Length w/ext'd decks	67.3"
D	Unit Width	28.8"
E	Base Length	47"
F	Stowed Height	68.7"
G	Platform Length	44"
H	Platform Width	26.4"
I	Entry Step	15.6"
	Ground Clearance	3.4"
	Capacity w/Decks Ext'd	397 lbs.
	Tires	Solid Non-marking
	Front Wheel: Diameter / Width	8" / 2.8"
	Rear Wheel: Diameter / Width	12" x 3.6"
	Rated Number of Occupants	2
PERFORMANCE		
	Drive Speed- Stowed	1.9 mph
	Drive Speed- Elevated	.35 mph
	Raise/Lower Speed	16 / 21 sec.
	Inside Turning Radius	Zero
	Outside Turning Radius	49.3"
	Gradeability	35%
	Controls	1-Hand Proportional
POWER		
	Power Source	110/220V, ca24Vcc
	Batteries	(2)12V 85Ah @20h
COMPLIANCE: ANSI A92.6, CE, AS1418.10 (Int'l)		

One-of-a-kind
CAWP-Rocker Accessory
 available for overhead
 installations.
